## SUMMARY

Results-oriented frontend developer with 4+ years of experience specializing in creating responsive and user-friendly web applications. Proficient in HTML, CSS, and JavaScript, with a deep understanding of modern frontend frameworks such as React and Angular. Demonstrated ability to collaborate effectively with cross-functional teams to deliver high-quality projects on time. Strong problem-solving skills and a passion for creating intuitive user interfaces that enhance the overall user experience. Proven track record of successfully translating design concepts into pixel-perfect, visually appealing websites. Committed to staying up-to-date with emerging technologies and industry trends. Seeking an opportunity to leverage my skills and contribute to innovative web development projects.

## EXPERIENCE

### Front-End Developer Intern

#### Tracify

04/2023 - Present Abuja, NG - Remote

TraciFy is a unified logistics management platform for enterprises providing delivery management, fleet optimisation, standardisation and safety compliance...

- Collaborated with the development team to build and maintain responsive web applications using HTML, CSS, and JavaScript.
- Assisted in implementing frontend designs and features, ensuring they were visually appealing and user-friendly.
- Participated in code reviews and worked closely with senior developers to enhance code quality and efficiency.
- Conducted browser and device compatibility testing, ensuring consistent performance across different platforms.
- Assisted in optimizing website performance by implementing best practices, such as minimizing file sizes and leveraging caching techniques.
- Researched and implemented new frontend technologies and frameworks to enhance the development process.
- Contributed to the improvement of the company's internal development tools and processes, increasing productivity and efficiency.
- Collaborated with UX/UI designers to translate design concepts into functional and visually appealing web interfaces.
- Actively participated in team meetings, sharing ideas and suggestions for enhancing the overall user experience.
- Assisted in troubleshooting and resolving frontend issues, providing timely support to ensure smooth website functionality.
- Completed assigned tasks within deadlines and demonstrated strong attention to detail in all aspects of development.

## TECH STACK

JavaScript(ES6+)		HTML5	CSS3
ReactJS	NextJS	React Redux	
Redux	React Context API		Bootstrap
Material UI	Tailwind CSS		
Styled Components		Material UI	
Ant Design	Chakra UI	Formik & Yup	
React Hook Form		React Router	
Axios	Fetch API	AJAX	
Adobe XD	Figma	Sketch	
Media Queries		Flex Box	Grid
React Profiler		Code Splitting	
VS Code	ESLint	Prettier	Sass
Less	Post CSS	Webpack	Gulp
Parcel	Babel	Netlify	Vercel
AWS Amplify		RESTful APIs	
GraphQL	Git	Github	Bitbucket
Github Actions		Travis CI	Jira
Trello	Asana	Jest	Enzyme
React Testing Library		inVision	
Marvel	Zeplin		

## STRENGTHS

### Expertise in React

Proven track record of developing robust and scalable user interfaces using React.js, leveraging its core features such as components, state management, and React Hooks.

## EXPERIENCE

### Front-End Developer Freelancer | Self-Employed

#### Remote | Hybrid

📅 2019 - Present 📍 Lagos, NG

Experienced frontend developer freelancer skilled in creating responsive and visually appealing websites. Proficient in HTML, CSS, JavaScript, React and many more delivering customized solutions that enhance user experience and meet client objectives.

- Worked independently with clients to develop and deliver custom, responsive websites using HTML, CSS, JavaScript, React, NextJS and others.
- Collaborated closely with clients to understand their requirements, translating their vision into functional frontend designs.
- Developed efficient and reusable code to create interactive and user-friendly web interfaces, adhering to industry best practices and standards.
- Implemented frontend frameworks such as React and Vue.js to enhance website functionality and improve user experience.
- Customized and integrated third-party APIs and plugins to add desired features and functionality to client websites.
- Optimized website performance by optimizing code, minimizing file sizes, and implementing caching techniques.
- Provided ongoing maintenance and support for client websites, addressing bug fixes and implementing updates as needed.
- Effectively managed multiple projects simultaneously, consistently meeting deadlines and delivering high-quality work.
- Collaborated with graphic designers and UX/UI teams to integrate design assets and create visually appealing interfaces.
- Communicated regularly with clients to provide project updates, gather feedback, and ensure client satisfaction.
- Continued professional development by staying updated with the latest frontend technologies, tools, and trends.

## STRENGTHS

### React Ecosystem

Strong familiarity with popular libraries and frameworks within the React ecosystem, including Redux for state management, React Router for routing, and Formik for form handling.

### UI/UX Focus

Deep understanding of UI/UX principles and the ability to translate design concepts into interactive and visually appealing user interfaces, ensuring an exceptional user experience.

### Testing and Debugging

Skilled in writing unit tests using Jest, React Testing Library, and Enzyme, ensuring code reliability and identifying and resolving bugs through comprehensive debugging techniques.

### Performance Optimization

Proficient in optimizing React applications for performance, utilizing techniques such as code splitting, lazy loading, and memoization to deliver fast and efficient user experiences.

### Collaboration and Communication

Effective team player with excellent communication skills, capable of collaborating with cross-functional teams, including designers and backend developers, to deliver high-quality projects.

### Problem Solving

Strong analytical and problem-solving abilities, allowing for the identification and resolution of complex frontend challenges, ensuring smooth functionality and a polished user interface.

### Continuous Learning

Enthusiastic about staying updated with the latest advancements in frontend development and React ecosystem, actively seeking opportunities for professional growth and expanding skill set.

## EDUCATION

### B.S. Computer Science

#### University of Kent (Online)

📅 01/2023 - Present 📍 Canterbury, UK

GPA

3.87 / 4.0

- Completed foundational coursework in computer science, including programming fundamentals, data structures, and algorithms.
- Gained hands-on experience with programming languages such as Java, C++, and Python, developing basic applications and solving coding challenges.
- Studied computer architecture and operating systems, gaining a strong understanding of hardware components and system-level functionalities.
- Explored the principles of software engineering, including software development methodologies and best practices.
- Acquired knowledge of database management systems, including designing and implementing simple databases using SQL.
- Participated in team-based projects, collaborating with peers to solve complex problems and deliver software solutions.
- Developed strong analytical and problem-solving skills through coursework and practical assignments.
- Actively engaged in classroom discussions and demonstrated a commitment to continuous learning and academic excellence.
- Engaged in extracurricular activities, such as coding competitions or tech-related clubs, to further enhance technical skills and knowledge.
- Attended seminars and workshops on emerging technologies to stay updated with the latest trends in the field.

## PERSONAL PROJECTS

### E-commerce Website

📅 02/2022 - 06/2022 📍 Lagos, NG

Developed a full-fledged e-commerce website using React.js, Redux for state management, and Material-UI for UI components. Implemented features such as product listing, cart functionality, user authentication, and payment integration using Stripe API. Utilized Firebase for backend services, including user authentication and database storage.

- Designed and implemented a responsive and visually appealing user interface, ensuring seamless user experience across different devices.
- Integrated third-party APIs, such as Stripe, to facilitate secure online payments, resulting in enhanced user convenience and increased sales.
- Implemented advanced filtering and search functionalities to improve product discoverability and enhance user engagement.
- Optimized website performance through code optimization, lazy loading, and caching techniques, resulting in reduced loading times and improved overall site performance.

### Recipe Finder App

📅 07/2021 - 10/2021 📍 Lagos, NG

Created a recipe finder web application using React.js, utilizing React Hooks for state management. Integrated with a RESTful API to fetch recipe data and implemented features such as search functionality, filtering by ingredients, and saving favorite recipes. Implemented responsive design and utilized Styled Components for styling.

- Developed a user-friendly interface with intuitive search functionality, enabling users to easily find and explore a wide range of recipes based on their preferences and dietary restrictions.
- Implemented a feature to save and manage favorite recipes, allowing users to create personalized collections and access them for future reference.
- Utilized modern CSS techniques, such as Flexbox and CSS Grid, to create responsive layouts that adapt seamlessly to different screen sizes.
- Conducted comprehensive testing and debugging, ensuring a smooth and error-free user experience across multiple browsers and devices.

## MY TIME

## ACHIEVEMENTS

### Outstanding Achievement in React

- Received recognition for developing a complex web application using React.js that significantly improved user experience and achieved a 30% increase in user engagement.
- Implemented advanced features such as real-time chat functionality, dynamic data visualization, and interactive user interfaces, showcasing expertise in React and delivering a highly interactive and visually appealing user experience.
- Demonstrated exceptional problem-solving skills by effectively resolving complex technical challenges, optimizing performance, and ensuring seamless functionality across different browsers and devices.

### Hackathon Winner

- Participated in a frontend-focused hackathon and emerged as part of the winning team.
- Collaborated closely with team members to develop a React-based web application from scratch within a limited time frame.
- Implemented innovative features, such as drag-and-drop interface, animated transitions, and live data updates, showcasing creativity and technical prowess in building engaging user interfaces.
- Received recognition for delivering a polished and functional prototype that impressed judges and stood out among other submissions.

### Open Source Contributions

- Actively contributed to open source projects within the React community, demonstrating a commitment to collaborative development and enhancing the React ecosystem.
- Made valuable contributions, such as bug fixes, feature enhancements, and documentation improvements, to popular React libraries or frameworks.
- Received acknowledgment and positive feedback from the community for the quality and impact of the contributions made.
