## SUMMARY

Versatile Front-end Developer with 3+ years of experience designing, developing, and managing complex e-commerce sites and internal frameworks. Specializes in AngularJS and responsive design. Seeking for new opportunities and challenges that will expand my skill set. Most proud of Every Earning - an online service I started it's development August 2022, in my senior year that lets online shoppers buy anything from anywhere on-a-go if with access to the internet.

## EDUCATION

### High School Degree

#### King George Memorial Schools

12/2014 - 07/2020 Lagos, NG

- Took classes in Web Development, UX and UI Designs with Google, Meta and IBM at Coursera.
- Also took some classes with Udacity.
- Played in the Football team for 14 years - won 3 Trophies and a lot of local games.
- Won 1st place (out of 50+) at TradeLot's annual hackathon
- Expert in responsive, mobile-first development

GPA

4.0 / 4.0

## EXPERIENCE

### Junior Front-End Developer

#### My Boutique

12/2021 - 02/2022 Lagos - Remotely

My Boutique is an e-commerce website that connects buyers and online shoppers with Boutiques, Supermarkets and even Malls with the idea of promoting online shopping.

- Completed 100 hours of training on Web Development with React.
- Successfully performing maintenance on the front-end of the platform, which is based on HTML, jQuery and React
- Optimized UI load times and performance by up to 80% by fixing bugs
- Communicated with back-end developers for any front-end problematic issues

### Front-End Development Intern

#### DevOps

02/2020 - 07/2020 Lagos, NG

DevOps is a Web Development agency that creates websites for small business owners. Their portfolio spans from simple 2 or 3-page websites, to online shops.

- Worked with team of 5 web developers and provided end-to-end solutions for 5 clients
- Collaborated with teammates and updated application versions using Git
- Used best practices in HTML and CSS to develop a static site based from a static image of a website design
- Performed daily operations and maintenance tasks to ensure 40 web pages under DevOps are up-to-date and free of errors
- Developed cross-browser/platform HTML5, CSS and JavaScript to match design specs for complex page layouts while adhering to code standards

## INDUSTRY SKILLS

## STRENGTHS

### Eager to learn new skills

As a person who is starting out, I am constantly seeking for new ways to grow and expand my skill set.

### Not afraid of failure

Strong believer in the mantra that we learn from our mistakes.

### Time management

I always set aside time to plan my week and distribute the workload by days so that I can simultaneously meet deadlines and maintain my well-being.

### Collaborative

Playing in my college's Football team taught me almost everything there is to know about being a team player. I am a very good team player, employ me and we shall work collaboratively, win projects and celebrate our success together.

## PERSONAL PROJECTS

### Every Earning

08/2022 - Ongoing Lagos, NG  
EE.com

Every Earning is a website where you can get almost everything you want. It's ongoing because there are still a lot of resources needed to demonstrate my ideas. that lets Seattle-based freelancers/students know.

- Started it August 2022 with my elder brother who is Data Intelligence Expert at Nestle - Nigeria.
- It's a website that solve the problem of online shopping from a piece of pen to anything you can think of in our immediate community.
- I worked on the front-end area, creating a simple interface featuring a map of stores obtained via Google Maps Embed API
- Increased the popularity of 10 small, family-owned, independent businesses
- It's a project I personally thought of it helping people with businesses like great Companies to as low as even Market women.

## PERSONAL PROJECTS

### Others

📅 05/2019 - 12/2022    📍 Lagos - NG  
🔗 URL

#### Other Personal Projects

- Revamped UI and app interface for customer-facing e-commerce site with 200,000+ unique visitors per month.
- Designed and developed front-end for 20+ websites, using jQuery, AJAX, RequireJS, and Handlebars.js
- Created custom AngularJS components for internal framework.
- Automated image optimization, using Grunt and minified JS and CSS, which reduced page load times by up to 30%.
- Translated design team's UX wireframes and mockups into responsive, interactive features, using HTML/CSS and JavaScript.
- Worked with agile team to migrate legacy company website to AngularJS, Sass, HTML5, and Drupal.
- Created HTML email templates that improved email CTR rates by ~25%.
- Designed and developed GUI for applications and modules, using JavaScript.
